M. FURKAN CENGIZ

Full Stack Web Developer

% +90 5071707805 muhammedcengiz1@gmail.com Portfolio

ຳ_{ດີ} LinkedIn Turkey/Istanbul

SUMMARY

A self-taught Web Developer who loves being helpful, creative, and solution-oriented. It all started as a hobby in 2022, then became my passion, and the reason for shifting my whole focus to software development. I used to code in C# and JavaScript, but now I adore TypeScript, which enables me to develop on both ends with type safety.

PROJECTS

🛗 2023 Jul. - 2023 Aug. Leanification

← Live Demo □ Repository

Successfully collaborated with a team of four to develop a dynamic Learning App in the capstone project of the Recoded Bootcamp

- Utilized React with Next.js for leveraging Server Side Rendering
- Implemented the git workflow, GitHub projects for task management and Agile Methodology commonly used by devs
- Implemented Next-Intl for internationalization and Next-Auth for authenticating users
- Used AWS Cloud for storing pictures, MongoDB and Mongoose for storing users and courses

Turkish Dictionary

 Repository ← Live Demo

Created a new dictionary website by integrating the official TDK dictionary API, addressing key feature gaps through the incorporation of client-side routing with Angular 16.

- Gained expertise encompasses Angular Routing
- Implemented HTTP Interceptors for caching
- Creation of dynamic Dark-Light Mode Theme with accompanying animations

Frontend Mentor Challanges

2023 Mar. - Present

🛗 2023 Jun. - 2023 Jul.

Repository

Solved 12 real-life project challenges which helped me to practice and improve my skills further during the bootcamp.

- Working on these projects continuously allowed me to grasp the fundamental concepts of HTML, CSS and JavaScript quickly and permanently.
- Improved my time management and working under pressure skills by setting deadlines for the challenges

SKILLS

| Asp.NET | WEB APIs | Bun | Node.js | Angular | Next.js | React | C# | TypeScript | JavaScript |
|---------|----------|------|----------|-----------|--------------------|-------|--------|------------|------------|
| HTML | CSS | scss | Tailwind | Shadcn/ui | Entity Framework 7 | | Prisma | MongoDb | MySql |

EDUCATION

Front End Web Development Bootcamp

🛗 2023 Mar. - 2023 Sep.

Re:Coded

A bootcamp that emphasizes teamwork and self-learning, providing skills in frontend development and fostering personal growth as a team member

Taken Flatiron School courses to improve soft skills like communication in business, providing feedback and more.

Industrial Engineering

🛱 2020 Oct. - 2022 Jul.

Abdullah Gul University

- Completed English prep school successfully first year.
- Used to be a member of various student clubs like Culture and Literature Club. Later on, I shifted my focus to software development.
